

## **Facility Credentialing Checklist**

The following is a checklist of documentation that I have provided in the past for obtaining temporary and affiliate privileges at various medical facilities in order to practice as a Certified Registered Nurse Anesthetist.

Based on the Engagement Agreement signed by either the Practice Group, Facility, or Staffing Agency, it was mutually agreed that I receive periodic updates from the Facility as to the status of my credentialing process. This will enable me to be more proactive in ensuring that the information you need to pre-fill the application for my attestation in addition to supporting documentation is ready and available on my website at: <a href="https://dreamsafe1099.com">https://dreamsafe1099.com</a>.

Please comp	lete the form belo	ow to the best of your ability and return to me at <a href="mailto:april@dreamsafe1099.com">april@dreamsafe1099.com</a>
